

June 2024

Dear families

Earlier in the year, your child completed an expression of interest form for their examined option routes for GCSE. The academy put a range of measures in place to support students and we are now ready for your child to make their final choices. The subjects and blocks have been selected based solely on student interest.

As a reminder, students will continue to be taught a broad curriculum in Year 9, but this process will identify the examined routes that your child wishes to uptake. For example, if a student chooses history, they will continue to study geography as well until the end of Year 9. Please also note that students will still have the option to change their examined option subjects throughout Year 9.

The deadline to return their examined options route form is **Friday 5 July**. Students will need to hand in their form to reception.

Please feel free to contact Miss Blythe with any questions that you might have.

Yours faithfully

Charlotte Blythe
Vice Principal
