

Examined Options Route - Class of 2029

Student name: **Advisory:**

Please state what your first and second choice subjects would be in the examined option block 1 and option block 2. Where possible we will facilitate first choice options for all students, however, where this is not possible due to class size and course popularity, we will discuss appropriate alternatives with each individual, but will seek to select your second choices. This final list of subjects is based on student preferences from the initial form.
